Tanker Rollover on the M56

A solid orange horizontal bar spanning the width of the slide at the bottom.

# Incident support

---

Qualitech were called out to empty the rolled over tanker and clean the M56 carriageway after a tanker crash at the busy Junction 12 of the M56.

The incident involved emptying the tanker so it could be made safe and put back onto its wheels.

Then the carriageway needed washing down and the washings uplifted ready for the public to start using the motorway again.

# Incident Summary

The driver had a lucky escape and was uninjured.

The tanker is being put back on its wheels in this picture.

The motorway was closed for 11 hours whilst the work was completed.

Thank you for your time.
